

March 20, 2020

Dear Valued General Atomics (GA) Supplier,

The health, safety and well-being of our employees, customers, community and suppliers are our top priorities as we provide continued support and service to our US government and non-government customers. As you are aware, California Governor Gavin Newsom has issued Executive Order N-33-20 on March 19, 2020 regarding the COVID-19 situation. The California Department of Public Health has ordered all individuals living in the State of California to stay home or at their place of residence except as needed to maintain continuity of operations of the federal critical infrastructure sectors, as outlined at <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>. Under this Order, GA is continuing business operations in order to maintain continuity of operations of the federal critical infrastructure sectors.

Consistent with the Governor's guidance, GA will continue to support the essential products and services required to meet national security commitments to the Federal Government and the U.S. Military. The Department of Defense has issued a memorandum to the Defense Industrial Base (DIB) and reiterated the need for the "Essential Critical Infrastructure Workforce" to maintain normal work schedules during this time. Please review the attached memorandum and support our customer, as requested.

GA is closely monitoring the COVID-19 situation and advising employees and stakeholders to take necessary precautions for health and safety. Please refer to [Centers for Disease Control \(CDC\)](https://www.cdc.gov) for additional information, updated recommended medical protocols and news regarding any announcements from state or federal authorities.

Thank you for your hard work and efforts to operate our business, which is vital to our country.

Nothing in this correspondence is, or is intended to be, understood or relied upon as direction or authority to deviate from any of the terms and conditions of any Order.

General Atomics
