# Sledgehammer

## PERSISTENT ELECTRONIC ATTACK POD

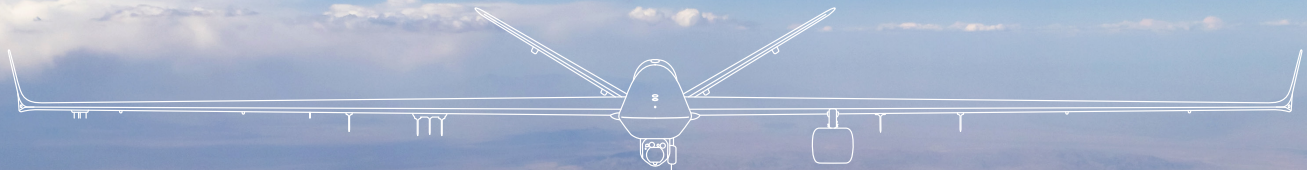

### OVERVIEW

Sledgehammer enables a variety of electronic support and information operations. It detects and neutralizes threats in the electromagnetic spectrum from the wing of an unmanned or manned aircraft. A high-power electronic attack pod designed to deny enemy communications and command and control capabilities in close-range orbits, Sledgehammer delivers the battlespace situational awareness advantage.

### FEATURES/BENEFITS

- Augments low-density, high-demand electronic attack assets with a persistent presence
- Supports legacy and modern communication bands
- Provides a variety of attack techniques and vectors to ensure successful denial, degradation, and delivery of information operations messaging

### CHARACTERISTICS

<b>DIMENSIONS</b>	125" x 29" x 25" (3.18m x 0.74m x 0.64m)
<b>WEIGHT</b>	600 lb (272 kg)
<b>POWER</b>	115 VAC, 11.5 vA
